

POLIMI EVENTS WITHIN THE 50th ANNIVERSARY OF THE MOON LANDING

Politecnico di Milano, in collaboration with the Department of Aerospace Science and Technology (DAER), wants to remind the memorable feat accomplished by Neil Armstrong and Buzz Aldrin the 20th of July 1969 with the Apollo 11 which landed for the first time a human being on the moon.

Politecnico di Milano, Campus Bovisa
Via La Masa, 34 - 20156 Milano
Building B12, First Floor, Room L.12

17.12.2019 - h. 18.00

Scientific Seminar

From Earth to Space: biomedical cardiovascular research for future space missions @POLIMI

Enrico Caiani

Future space exploration class missions increase the complexity of the scenarios relevant to the risk connected to human spaceflight. In order to be prepared mitigating such risks and developing proper countermeasures, several opportunities of research in the biomedical field are available, both as space analogues and through experiments using the International Space Station (ISS).

In this scientific seminar, the experience cumulated @POLIMI in the last fifteen years during several studies in the field of cardiovascular research in microgravity by Prof. Caiani and his team will be shared, together with future directions of research from Earth to Space and viceversa.
